PROFESSIONAL EXPERIENCE

Web Developer (Student Project)

ICST—Learning Management System Project
Jan 2024 – Apr 2024

- Developed a complete LMS platform with user login, course listings, and admin control panel.
- Used HTML, CSS, JavaScript, PHP, and MySQL.
- Designed responsive UI and ensured database connectivity.

Freelance Web Developer

Remote | Jan 2023 – Jan 2024

- Designed and developed responsive websites for small businesses and individuals using HTML, CSS, JavaScript, and PHP.
- Customized WordPress themes and set up eCommerce features for client stores.
- Worked closely with clients to gather requirements, provide ongoing support, and ensure timely delivery.
- Completed 5+ projects including business sites, portfolios, and booking systems.

Participant—ICST University Hackathon 2025

International Campus of Science and Technology (ICST) - Apr 2025

- Collaborated in a team of 4 to design and prototype a tech-based solution for student attendance tracking, food ordering, doctor reservations, and complaint systems.
- Used tools like HTML, CSS, JavaScript, and Figma to create a working demo within 48 hours.
- Presented the project to a panel of academic judges, gaining experience in pitching and teamwork under pressure.
- ained valuable exposure to real-world tech challenges and time-bound development.
